R&D - Engineering

Holistic Engineering

R&D, Ideation and Innovation
Prototyping and Rapid Iteration
Product, Process, Tooling and
Equipment Engineering
Testing and Validation
Process Optimization

Tool & Die Shop

Stamping Die
Jig, Fixture & Gauge
Injection Mould
Purpose-Built Testbench

Test Lab

Endurance
Extreme Load
Climatic
Ingress Protection
Salt Spray
Destructive & ND Weld Test
Coordinate Measuring
Material Test

About us

ILERI Group is a trusted OEM partner in Engineered
Control Technology solutions, with more than
40 years of manufacturing and product development
experience. Located in the US and Turkey, ILERI is a
Tier 1 supplier to the mainstream OEMs across
the globe.

Quick Facts

In business since 1978
~200 Employees,
Product Innovator & Process Specialist
Versatile Industry Experience:
    Automotive + Commercial Veh (2010+)
-    Off-Highway Industry (1978+)

Production

A fully transparent visual factory with
real-time production monitoring,
namely 'MAS Manufacturing Execution System'.

Manufacturing Capabilities

Assembly
Mechanical/Manual Assy
Automated Assy
Robotic Welding Assy

Metalwork
Laser Cutting
Stamping
Brake Forming
Tube Forming
Machining

Plastic Production
Injection Molding

Products

Steering Solutions

Access Controls

Motion Controls

Structural Systems

Quality

Enhancing Quality

ISO, IATF, QSB+ certified
Occupational Health and Safety integrated

Promoting Sustainability

Ecovadis Sustainability Rating
ISO 14001 compliant
UN Global Compact member

Information Security

IEC 27001 compliant

We excel in ideation, design,
development, and optimization,
guaranteeing efficiency and
exceptional results.
